Customer Problem Statement Template:

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love.

A well-articulated customer problem statement allows you and your team to find the ideal solution for the challenges your customers face. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

I am	Describe customer with 3-4 key characteristics - *who are they?*	Describe the customer and their attributes here
I'm trying to	*List their outcome or "job" the care about - what are they trying to achieve?*	List the thing they are trying to achieve here
but	Describe what problems or barriers stand in the way – *what bothers them most?*	Describe the problems or barriers that get in the way here
because	Enter the "root cause" of why the problem or barrier exists – *what needs to be solved?*	Describe the reason the problems or barriers exist
which makes me feel	Describe the emotions from the customer's point of view – *how does it impact them emotionally?*	Describe the emotions the result from experiencing the problems or barriers

Customer Problem Statements

Customer Problem Statement template (Miro)

I am a Market Strategy Director (Emily Johnson). PS-1
I'm trying to see how regions and battery types perform together.
But sales and technical specs sit in different columns.
Because there is no view combining region, battery and category.
Which makes me feel stressed and unsure before planning meetings.

I am an Automotive BI Manager (David Chen). PS-2
I'm trying to advise clients on drivetrains, battery types and ownership cost.
But I must compare price, insurance and motor power by hand.
Because there is no interactive tool that links them.
Which makes me feel slow and less confident.

I am a Sustainable Mobility Researcher (Dr. Sarah Williams). PS-3
I'm trying to compare battery size, energy efficiency and charging time.
But these specs differ widely between vehicle types.
Because existing reports do not compare categories visually.
Which makes me feel frustrated and unable to give quick policy advice.

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	a Market Strategy Director (Emily Johnson)	see how regions and battery types perform together	sales and technical specs sit in different columns	there is no view combining region, battery and category	stressed and unsure before planning meetings
PS-2	an Automotive BI Manager (David Chen)	advise clients on drivetrains, battery types and ownership cost	I must compare price, insurance and motor power by hand	there is no interactive tool that links them	slow and less confident
PS-3	a Sustainable Mobility Researcher (Dr. Sarah Williams)	compare battery size, energy efficiency and charging time	these specs differ widely between vehicle types	existing reports do not compare categories visually	frustrated and unable to give quick policy advice
