Customer Journey Map

The journey of an EV stakeholder (Emily Johnson; also David Chen and Dr. Sarah Williams) from a business question to a decision using the dashboard.

Phase of Journey	Stage 1: Question	Stage 2: Explore	Stage 3: Act
Actions – What does the customer do?	Receives a question about regions or vehicle technology	Opens the EV Technology Dashboard; uses region, category and model-year filters	Presents the Story; recommends regions, battery types or vehicle classes
Touchpoint – What part of the service do they interact with?	Email / meeting, spec sheets	KPI strip, region treemap, trend, heatmap, battery and efficiency charts	Tableau Story, shared link
Customer Thought – What is the customer thinking?	"How do I compare all these specs?"	"NMC and LFP lead everywhere; buses need huge batteries."	"Now I can advise with evidence."
Customer Feeling – What is the customer feeling?	Overloaded	Curious, in control	Confident
Process Ownership – Who is in the lead on this?	Business user	Analyst (Riya Sharma)	Business user
Opportunities – How can we improve this stage?	Keep specs and sales in one place	Add drill-down from region to country	Add cost-of-ownership forecasting

Journey map (visual):

Customer Journey Map – EV Technology Dashboard User

Persona: Emily Johnson (also representing David Chen and Dr. Sarah Williams)

	1. Question	2. Explore	3. Act
Actions	Gets a question on regions or vehicle technology	Uses region, category and model-year filters	Shares the story and recommends actions
Touchpoints	Meeting / email, raw dataset	KPIs, treemap, trend, heatmap, battery and efficiency charts	Tableau Story, Tableau Public link
Thoughts	"How do I compare all these specs?"	"NMC/LFP lead everywhere; buses need huge batteries."	"Now I can advise with evidence."
Feelings	😟 Stressed	🙂 Interested	😊 Confident
Ownership	Business user	Analyst (Riya Sharma)	Business user
Opportunities	Keep data in one place	Add more filters and tooltips	Add forecasting in future
